Level III Rising Grades 6–8	Aug. 9–11 9 a.m.–12 p.m.	5-Apr
	Aug. 9–11 1 p.m.–4 p.m.	5-Apr

What is it?

GSK Science in the Summer™ program in North Carolina is a fun and free science education initiative that helps elementary and middle school children “grow into science”.

Through classes held at public libraries and community-based centers in eleven North Carolina counties and taught by certified teachers, this program gets children excited about studying science with hands-on experiments.

The GSK Science in the Summer™ program in North Carolina is sponsored by GSK and in partnership with UNC-Chapel Hill's Morehead Planetarium and Science Center.

The theme for 2021 is “Be an Engineer!”

Bridges and spaceships don't build themselves. They're created by problem solvers and creative thinkers – or in other words: engineers! From the roller coasters we ride to the airplanes we fly in, campers will use their hands and minds to discover the world of engineering through investigations and design challenges. Who knows? Maybe this will inspire you to “Be an Engineer!”
