

GSK Science in the Summer™

In partnership with UNC Morehead Planetarium and Science Center

Now Hiring Assistants for Summer Camps

Work opportunity for High School Students

The GSK Science in the Summer™ program is recruiting 5 high school students to work as assistants during week-long science programs at a Gates County public school during summer 2021.

What you'll do

You'll work alongside a certified teacher to lead science camp sessions for elementary or middle school students. Students will participate in hands-on activities that explore engineering and other STEM activities. Camps for elementary and middle school students will occur in July.

What is it?

The GSK Science in the Summer™ program in North Carolina is sponsored by GlaxoSmithKline and administered by UNC-Chapel Hill's Morehead Planetarium and Science Center.

The GSK Science in the Summer program™ in North Carolina is a fun and free science education initiative that helps elementary and middle school children "grow into science" and gets kids excited about studying science through hands-on experiments.
