

GSK Science in the Summer™

In partnership with UNC Morehead Planetarium and Science Center

Now Hiring Assistants for Summer Camps

Work opportunity for High School Students

The GSK Science in the Summer™ program is recruiting high school students to work as assistants during week-long science programs at a Gates County public school during summer 2022.

What you'll do

You'll work alongside an educator to lead science camp sessions for elementary or middle school students. Students will participate in hands-on activities that explore engineering and other STEM activities. Camps for elementary and middle school students will occur July 11 - 13.

What is it?

The GSK Science in the Summer™ program in North Carolina is sponsored by GlaxoSmithKline and administered by UNC-Chapel Hill's Morehead Planetarium and Science Center.

The GSK Science in the Summer program™ in North Carolina is a fun and free science education initiative that helps elementary and middle school children "grow into science" and gets kids excited about studying science through hands-on experiments.
