

CALLING ALL TEACHERS, STUDENTS, AND SCIENCE LOVERS!

Morehead Planetarium and Science Center will host the annual UNC Science Expo on **Saturday, April 6, 2024, from 11:00 am – 4:00 pm.** We will also celebrate our 75th anniversary with the community on this date.

The **UNC Science Expo** is a signature event of the North Carolina Science Festival and one of the biggest celebrations of science in the state. UNC-Chapel Hill faculty, graduate, and undergraduate students join together to demonstrate the amazing STEM research, teaching, and learning that takes place across campus every day. More than **100 booths** staffed by students, scientists, and campus/community volunteers fill the quads surrounding Morehead. From hands-on activities and games to science demonstrations and behind-the-scenes lab tours, the Expo makes learning about science fun and engaging for people of all ages. Morehead is proud to coordinate this impactful community celebration of science.

HOW CAN YOU PARTICIPATE?

Encourage your students to attend the UNC Science Expo!

- ✦ Distribute the attached flyer to your students and their families.
- ✦ Encourage students to attend by offering extra credit or providing an opportunity for students to share their Expo experience with classmates.
- ✦ Remind students to visit the Morehead welcome booth at the Expo and enter the free raffle to win an outreach visit to your classroom!

WHAT TO EXPECT AT THE EXPO:

- ✦ Hands-on science activities
- ✦ Live science demonstrations and stage shows
- ✦ Behind-the-scenes lab tours
- ✦ A chance to win a science outreach visit to your classroom
