

SCIENCE FOR ALL SUMMIT

February 19-20, 2026
Chapel Hill, NC
Friday Conference Center

PROGRAM SUMMARY

Morehead created the Science For All Summit to engage educators, practitioners, researchers, and other change agents in conversation and knowledge building around emerging issues and innovative strategies related to advancing access and opportunity in the fields of science, technology, engineering, and mathematics (STEM).

The target audience for the Summit includes formal and informal educators, nonprofit organizations, corporations, universities, colleges and community colleges, and undergraduate and graduate students. Scholarships are available to ensure the Summit is accessible and inclusive.
