

SCIENCE FOR ALL SUMMIT

February 18-19, 2027
Chapel Hill, NC
Friday Conference Center

PROGRAM SUMMARY

The Science for All Summit is a national convening that advances equitable access and opportunity in STEM by bringing together educators, researchers, nonprofit leaders, practitioners, students, and industry partners for two days of collaborative learning and knowledge exchange. **In 2027, the Summit will celebrate its fifth annual convening.**

The Summit features keynote addresses, workshops, breakout sessions, guided networking experiences, and a poster presentation hall. Post-Summit survey respondents highlight practicality and quality as defining features of the Summit, and 100% say they would recommend it to others. Sponsors provide critical support that makes the Summit possible, including scholarships that ensure accessibility and inclusivity.
